

PLEASE do not weaken NJ Do Not Call Law! I definitely feel it should not be weakened so that our privacy is invaded. I have received marketing calls as early as 7:30 AM and as late as 11:30 PM. They pretend they do not know what time they are calling in my time zone - yeah right! Definitely caught me at home, now didn't they? PLEASE do not weaken it - I don't want to hear from anyone I did business with previously. If I need their services, they will be the first to know. They will not get my business by badgering me at all times of the day and night....
